

# Lemonade Lane

What is Lemonade Lane?

Lemonade Lane is a place where young children can explore the world around them outside the confines of their regular preschool or kindergarten classrooms. It's an opportunity to march in a parade, move to the rhythm of a beating drum or make music with a kazoo. In Lemonade Lane the children will enjoy special activities like puppet shows, entertaining guests and participation in creative hands-on learning experiences.

As part of the Lemonade Lane curriculum our preschool and kindergarten classrooms will participate in activities designed especially for them. Each activity will be an extension of all the wonderful and creative projects the children do each day in their regular classroom. Classes will meet once a week in the Lemonade

Lane classroom located in the new (north) section of our campus. Teachers will treat the children to a variety of activities structured to help them grow both socially and academically. In addition, each month the children will participate in a special event – a fair, a special presentation or fun activity.

New Vistas is dedicated to helping children reach their full potential. In Lemonade Lane we understand that children develop best when they have interaction between knowledge and experience. Our goal is to provide meaningful experiences that enhance and support the child's classroom curriculum. We look forward to all the exciting and fun times to be had as Lemonade Lane opens for business!
